

RSM Office Fit-out

Levels 31, 32 and 33 Exchange Tower, 2 The Esplanade

In a move to reposition themselves as one of the top ten global accounting and audit networks, RSM relocated from their Perth home of over 20 years, to a stunning new location at Exchange Tower - a building which they now also have naming rights to.

Split over three floors, MKDCs simple yet open-ended design brief - *Contemporary, Durable and Functional* - sought to create a client and staff work space which facilitated all elements of their business function, and encourage collaboration between departments.

High-end client facing areas on Level 32 included flexible board and meeting rooms, which open in to a stunning entertainment area.

A high degree of coordination in the pre-construction phase saw that the many high-end long lead time items did not hinder the strict 16-week programme.

Duration	19 weeks
Size	2,640m ²
Designer	MKDC
Consultant	ATA Engineering
Contract	Fixed Lump Sum
