

Slurp Soups Kiosk

ENEX 100 Building, Perth

Off the back of OPRA's success delivering the ENEX 100 food court, Slurp Soup engaged OPRA to deliver their new kiosk within the centre over a very short and intense time-frame.

A careful and partnered approach with Design Theory ensured the most cost effective and efficient solution was brought to the client and the requirement for absolutely zero disruptions to adjacent tenancies required careful coordination and all out of hours work.

Integrating all services and modifying elements were required for the equipment installation, and a high degree of detailing and quality finishes we delivered, bringing Slurp Soup in line with design of the main centre.

Duration	2 weeks
Size	60m ²
Designer	Design Theory
Contract	Fixed Lump Sum
